Company Introduction

Rex J Andrews (RJA) are specialists in transport and delivery of OSOM (Oversize Over mass) cargo. Our team has been providing engineered transport solutions to clients for over 3 decades.

Our end-to-end service includes manufacturing, transport, storage, customs clearance, route assessments and engineering expertise.

Rex J Andrews Pty Ltd is continually evaluating the needs of their clients & efficiencies of their fleet, purchasing, and manufacturing new equipment to meet the demands.

The fleet is diverse enabling RJA the unique mix of transportation options to cater for clients' specific needs, across town or across the country. No matter how awkward the load, RJA have the capability to assess the task develop engineered solutions to transport your difficult loads.

Not only does RJA have an extensive fleet of Prime Movers & trailer options, catering for on site loading and unloading with our reach stackers & crane options. RJA also has extensive jacking & skating services for loads with limited space available for cranes, this service is effective in power sub stations where cranes are not able to service transformer loads due to constraints of room, and live power lines.

Listed in this document are RJA's fleet units, which outlines the extensive support we can give to clients to get the project completed in the time frame required. RJA can deliver.
